MedExpress Donates 110 Bikes to Area Schools

BELLAIRE – It didn't take long for kindergarten student Gunnar Suriano to give a thumbs-up after trying out one of the 110 Learn-To-Ride pedal bikes at a "bike...

HOW TO USE THIS TOOLKIT

This kit is designed to build the marketing and PR capacity of schools and donors involved in the All Kids Bike program. Whether you are a school who is seeking support or have already met your funding goal, or a donor who has graciously chosen to gift this opportunity, we want you to be equipped with the tools and information necessary to share your story.

As a school, it's important to inform your community of the exciting things happening. People are eager to help you reach your goal and celebrate your successes with you as well! As a donor, you should want to share your story. Wherever your donation lands on the scale, you've made the choice to change lives and should be recognized.

Host a Build Day

There are various opportunities throughout the process for you to make your story extra epic. Bikes are shipped unassembled, meaning they need to be built before the school can use them. Organizing a build day with volunteers, the school staff, or a local group or organization, presents a great press opportunity.

Step 1: Choose a build location, date and time

Step 2: Contact volunteers

Step 3: Invite media

Step 4: Build the bikes!

kamtheindianguy Super excited for this Friday when we get to assemble the pedals on Bellshire Elementary's @striderbikes . In true fashion, I had to order one extra bike to make sure we knew how to do it! Thanks to all the volunteers and I'm excited to add to the growing list of young riders through @allkidsbike #balancebike #striderbike #striderbikes #allkidsbike #teachemyoung #learntoride

We were proud to present Strider bikes to Laura B Anderson Elementary School today. The kids were so excited to finally get the chance to use them. Both KSFY and KELO covered the event so watch for us on the news tonight. #dmoptimist #imagine

Delivery Day Presentation

Delivery days do as well. Surprising a room full of kindergartners with bikes is so rewarding and it's the perfect way to get everyone jazzed about what's happening!

Step 1: Contact school

Step 2: Schedule a date & time

Step 3: Get approval from school to invite media

Step 4: Make those kiddos smile!

***NOTE: Schools have various obligations for child safety and privacy which all parties must honor. Donation of the program to the school does not entitle the Foundation of the Donor to involvement at the school. Any participation in bike delivery and/or build day will be at the discretion of the school.*

BIG NEWS- MORE KIDS ON BIKES!!!! MedExpress donated 110 Learn-To-Ride Balance Bikes, pedal conversion kits and helmets to five area elementary schools as part of a partnership with All Kids Bike and the Strider Bikes Education Foundation, a nonprofit organization that aims to place kindergarten physical education programs into public schools for free.

In addition to Bellaire Elementary, other schools, each receiving 22 bikes, include Madison Elementary, Center McMechen Elementary, Anna Marie Ayers Elementary in Martins Ferry, and McNinch Primary School in Moundsville. Pinon Hills Elementary School

October 4, 2019 · 🌟

"Learning to ride a bike is practical, healthy and fun!" said Kathi Larsen, VirnetX Co-Founder. "We are delighted to participate in the first All Kids Bike Kindergarten PE Program in the State of Nevada and hope the kids have a great time while learning how to safely ride bikes."

Thank you to VirnetX and Paughco Parts for making this possible. The Strider Bikes were built by employees of Paughco Parts on September 24, 2019 and delivered to the kindergarten physical education class at Piñon Hills Elementary School this morning! All Kids Bike, we are so excited to get started!

FOR IMMEDIATE RELEASE:

[Business Name] Donates [Number of Bikes] to [School Name]

Every kindergartner will have the opportunity to learn to ride a bike in P.E. Class

City, State(Date) -- [Business Name] donated a complete Learn-To-Ride Program, including Strider Learn-To-Ride Bikes, helmets and curriculum to [School Name]. The bikes were assembled [Date] at [Location] in a collaborative effort by various [Business] staff, who volunteered their time, along with [School District] employees.

This generous donation will help approximately [number of currently enrolled/year x 5 years] kindergarten students learn to ride over the next five years.

The Strider Bikes will be delivered to every kindergarten physical education class at [name of school] and will be incorporated into their curriculum between [dates].

[Name of school/district] will receive everything they need to get their students pedaling through the Kindergarten P.E. program. The program includes a proven, integrative curriculum, staff training and certification, the revolutionary, child-friendly Strider Learn-To-Ride bikes, and helmets. The fleet of dual-propulsion 14x Strider Bikes start as balance bikes and convert to pedal bikes. This conversion makes learning to ride easier than ever before and makes training wheels obsolete. The Strider Education Foundation, the program provider, also offers continued support for each school to ensure everyone involved is successful for five years.

About Strider Education Foundation and All Kids Bike

The Strider Education Foundation, a 501(c)(3) organization, was formed in 2017. The Strider Education Foundation believes that learning to ride can help everyone lead a happier and healthier life. Through the development of a proven Learn-To-Ride curriculum and donations of the world's most advanced training bikes, the nonprofit organization makes riding available, safe, easy, and fun for everyone.
